

# **2023 solar container cup competition**

## Overview

---

The Solar District Cup challenges multidisciplinary collegiate student teams to develop forward-thinking approaches for campus or district solar-plus-storage systems that inspire students and professionals alike—and then design and model those systems. The competition engages students across disciplines—engineering, finance, urban planning, sustainability, communications, and more—to reimagine how energy is generated, managed, and used in a district. Department of Energy (DOE) Solar Energy Technologies Office (SETO) announced the Solar. Welcome to the Solar District Cup Class of 2025-2026! WHAT IT IS: The Solar District Cup is a collegiate competition that challenges multidisciplinary student. Secretary Granholm announced the launch of the 2023 American-Made Sunny Awards for Equitable Community Solar, which recognizes projects and programs that employ or develop best practices to increase equitable access to meaningful benefits of community solar.
