

21700 solar container cell parameters

Overview

The 21700 battery is a cylindrical lithium-ion battery with a diameter of 21mm and a length of 70mm. 7V and a capacity of up to 5,000mAh, making it a powerful and efficient energy source. This product specification has been prepared to specify the rechargeable lithium-ion cell ('cell') to be supplied to the Customer by TerraE. 71 g (Max) The information contained herein is for reference only and does not imply a performance guarantee or a product warranty.
