

# **Afghanistan solar container subsidy policy document**

## Overview

---

This guide outlines the key legal, fiscal, and operational regulations an investor will face when establishing a solar module factory in Afghanistan, transforming potential obstacles into a clear roadmap for success. The Renewable Energy Roadmap for Afghanistan RER2032 is developed to realize the vision and intent of the Renewable Energy Policy (RENAP) for Afghanistan that sets a target of deploying 4500 - 5000 MW of renewable energy (RE) capacity by 2032 and envisions a transition from donor grant-funded RE. Over 100,000 (over 650 Villages) solar home systems (SHSs) have been installed in various parts of the country. Prospects of low to medium temperature geothermal resources are widespread all over. Afghanistan has significant renewable energy potential from sources like solar, wind, hydro, biomass and geothermal.
