

American capacitor solar container system

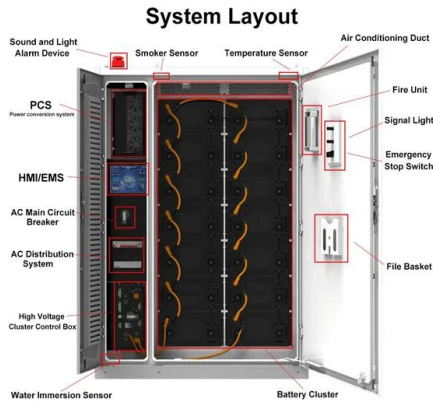

Overview

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. It provides clean, efficient power wherever you need it and can also generate profit. The electromagnetic catapult technology is now being scaled up for use on aircraft carriers.
