

# Are large solar container companies state-owned enterprises project

## Overview

---

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Excluding Chinese state-owned enterprises like SPIC, China Huaneng Group and CHN Energy, the top 15 non-Chinese global asset owners grew their portfolios by 20% last year. To account for these differences in operational asset portfolio sizes between China and the rest of the globe, Wood Mackenzie. Although the government is able to influence corporate activities through incentives, preferences, and regulations, as often discussed in the literature on state. These practices help boards embed sustainability into core business functions and support long-term value creation for their shareholders, stakeholders and the public.
