

Australian photovoltaic solar container installation

Overview

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian. AVID GROUP provide a whole range of SPS and Containerised Solar Energy Solutions. AVID's solar design, installation, commissioning and monitoring services are operated by our teams of skilled engineers and qualified electricians. The ECLIPS Container Roll Out Solar System (CROSS) project includes the detailed design, manufacture and testing of the Container Roll Out Solar System.
