

Automatic installation of solar containers

Overview

This manual addresses why these sorts of boxes are replacing remote power supply, what the components of the whole system are, how to wire and install it safely along with handy facts, industry jargon and best-practice references. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Good choice for disaster reliefs whenever it is important to deliver electricity as quickly as possible.
