Battery solar container case sharing session

A Mobile Solar Power Container is a self-contained, transportable solar energy system built into a shipping container or customized enclosure. Designed for flexibility, rapid deployment, and

Storage container that will be used for minimal dwelling needing solar

Are you building a solar system for your house? Shed? RV? This subreddit is for you! Discuss your projects, show us pictures, ask for help. Anything DIY Solar!

Fireproofing Battery Container , DIY Solar Power Forum

The commercially available battery enclosures seem to be too thin, like a file cabinet. The heat would distort them and likely collapse in a real fire making matters worse. If you want some ...

My Portable Battery Box , Second Life Storage & Solar

I have been working on my first battery project beyond the small power packs with a couple cells. When I started I knew I wanted to put it all in some kind of plastic storage container.
