

Belmopan guoning era solar container

Overview

In the heart of Central America, Belmopan is pioneering a container farming revolution powered by photovoltaic panels. This innovative approach tackles two critical challenges: food security in limited spaces and renewable energy integration. SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects. APR Energy designed, built, and commissioned a 60MW temporary power plant to help the Peruvian government alleviate its power supply constraints.
