

China solar container power conference

Overview

SNEC 18th (2025) International Photovoltaic Power Generation and Smart Energy Conference & Exhibition [SNEC PV+ 2025] will be held in Shanghai, China, on June 11-13, 2025. In H1 2025, the world added 380 gigawatts (GW) of new solar capacity - a staggering 64% jump compared to the same period in 2024, when 232 GW came online. This prominent event will explore the development trends of the photovoltaic industry both in. Overview of the System The "Made in China 2025" plan put forward a clear plan for China's Industrial Development in the new era. To further facilitate the exchange and collaboration in CSP and related technologies, the CSTA, Chinese Society of Engineering Thermophysics, China Renewable Energy Society, and Chinese Society for Electrical Engineering plan to jointly host the 2025 China CSP Conference in Xi'an, Shaanxi Province. As an active platform for promoting the sustainable development of China's PV and energy storage industries through international exchange and cooperation, the China International PV and Energy Storage Industry Conference has successfully held seven consecutive sessions since 2018.
