### 1st solar project nearly completed! (Shipping Container Camp)

Got er all hooked up and testing performance. (8) 455 watt Solarever panels. Ran them in series and put a 20 amp inline fuse on the positive wire were they

### 40' shipping container solar system to store my classic car and

Hello, My name is Bill and I'm new here. I have a 40' shipping container located in the Las Vegas desert that I would like to setup a solar system on top of to be able to power a small mini split ...

### Framing the container , DIY Solar Power Forum

Most of us who have purchased a shipping container as storage/lab/workshop did so because they are cheaper per sq/ft and more secure than an "Amish" shed. I have a shed and it ...

### Full size storage container for permanent install of solar/battery

A shipping container on site isn't a huge issue from an aesthetics standpoint. Issues I could possibly see are yearly below freezing and the 100+ temps that the area sees, so a battery box

...

### Shipping container power center , DIY Solar Power Forum

I'm developing some remote lots in Colorado where it's not cost effective to bring power in, so to support the site while development happens and as a demonstration unit for potential ...

### Solar heating ideas to utilize the excess heat that builds up in

Problems of overheating with dark colored shipping containers has given me some ideas concerning solar water heating. Does anyone else have thoughts on how to utilize heat that is gathered by ...

### mount panels on top of a 40 ft container

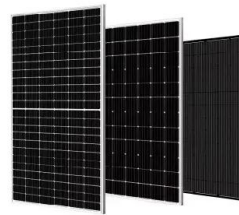

I have 15 panels, 350 watt each. I own a 40 foot storage container. The long side faces south. Looking to mount the panels on the roof. I will probably do a fixed angle. Should I have ...

## OPPOSE COLUMBIA SOLAR

This group is for those that want to protect and keep the Town of Columbia and its surrounding area what it is and has been - natural, bucolic, and free of large scale industrial projects that take ...

## Is This Solar-Powered Container the Answer to Soaring Temperatures ...

Recently, while browsing the web for information, I often came across an energy supply product called "solar container." I clicked on a few links and found that they all emphasized its ability ...

## Storage container that will be used for minimal dwelling needing solar

## Trying to figure out no drill solar panel mount for shipping container

I have been thinking about this problem :) I plan to build a small deck on top of my container and then mount the panels to part of that. I plan to secure the deck by running boards ...

## 12kw System on our container lab , DIY Solar Power Forum

Anyway, we welded down some unistrut on the container, and are mounting IronRidge racking to the strut using just some regular unistrut nuts and bolts through the "L" brackets.

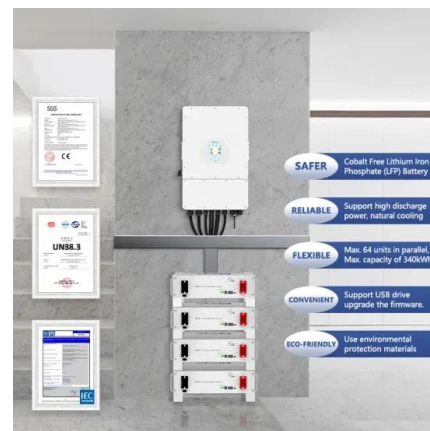

## Full size storage container for permanent install of solar/battery

Typically buying enough batteries and solar to run off grid isn't going to be cheaper than getting utility power, unless you are several miles from the nearest line. As far as code goes, you are ...

## How I turned a shipping container into a solar off-grid charging

Here's how I did it. There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit.

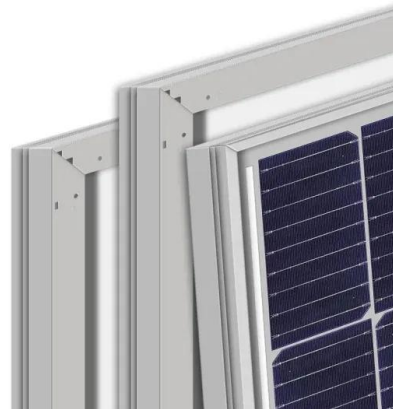

## Improved Shipping Container Lighting For Under \$100

This lighting system uses magnets to attach the Barrina LED lights to the ceiling of the shipping container. No adhesives were used, and no holes were drill

## Shipping Container solar AC

I need to add some sort of AC to the container to keep the solar equipment cool, mainly the batteries. All I'm currently running is a small fridge, some vent fans, cell booster, and a 4g lte ...

## Container folks, tell me why this is a bad idea? , DIY Solar Power Forum

Obviously the plan should to be to throw a solar array on it and power a mini split to condition the space. Duh. Then obviously the starter container should be a stainless steel Refer ...

## 20 ft Shipping Container Solar Array Mount , DIY Solar Power Forum

Trying to find the best way to mount 20 panels on a 20ft container and not be worried wind load will be to much to tip it over wanting to mount 2 rows of 10 at about 45 degrees. was planning ...
