

# Great wall solar container equipment

## Overview

---

This article will explore the benefits, customization options, installation techniques, and real-life applications of solar panels on shipping containers. They screw securely to the container top tubing without piercing the envelope and the bottom channel, so you can mount. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Our solar support structures enable 6-24 solar modules to be mounted on roof surface of standard 20-40 ft shipping containers.
