

# Homemade peak and valley solar container

## Overview

---

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container. One method that you can utilize to obtain water in a survival situation is by making a solar still. I'm sure you have made yourself a glass of a cool drink of some type on a hot day, and the outside of the glass gets droplets of water on it. Here I will go over 4 different ways to make solar stills, from very easy plastic bottle solar stills to ones you can make at home.
