

Household off-grid solar container project plan

Overview

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container. From eco-friendly minimalists to landowners, farmers, outdoor enthusiasts, and even Airbnb hosts, all kinds of people are creating unique and independent off-grid homes. Built from repurposed shipping containers, these modern dwellings combine eco-friendly design, renewable energy, and smart engineering to create resilient, energy-efficient homes that don't rely on municipal power, water, or sewage systems. Going off-grid is the ultimate: complete energy independence from the utilities, thank you very much, by way of solar and supplemented by rainwater or wells.
