## Overview

---

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no shading from a remaining container structure. Jinyingfeng energy storage power supply offers efficient solutions, remarkable technology, strong market potential. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. By integrating all necessary equipment within a transportable structure, these units provide modular, plug-and-play renewable energy systems.
