

How many solar container companies are there in the united states

Overview

As of January 2024, IBIS World estimates that 11,091 solar panel installation companies are operating in the United States. With a secure supply chain backed by tax incentives, this number will rise as both the commercial and residential market continues to grow. Solar forms part of the Energy industry, which is the 14th most popular industry and market group. These aren't exact numbers as solar contractors can pop up and close down over the course of a year.
