

Italian solar container fire extinguishing system manufacturer

 **LFP 12V 200Ah**

Overview

EMME ANTINCENDIO was founded by Gian Franco Milli and his family in 1973 and has steadily grown to become one of the most dynamic companies in the sector, a leader in the Italian market through a widespread network of dealers. Firecom's aerosol fire extinguishing system is suitable for protection of wind turbines and solar PV installations: its effectiveness and low-maintenance efficiency makes it the ideal solution to protect from the risk of fire in the renewable energy sector. For over thirty-five years, we have been designing and manufacturing cutting-edge fire protection systems for the protection of any environment. An Expert in the protection of high value assets in the oil & gas, petrochemical and power generation industries. SIA offers fully engineered, pre-assembled and even self-sufficient systems, specifically designed to protect Gas Turbines, Steam Turbines, Generators, Compressors, Transformers auxiliaries such as Skid Gas, Lube Oil Tanks and Pipes, as well as Electrical and Control Buildings, EDG and other. The Fire Kloud system is effective, clean, non-toxic and leaves no residue that damages the.
