

Khorgos solar container industry planning

Overview

It will be constructed in three phases: the first phase covers an area of 547 mu, and the second phase covers an area of 2000 mu, mainly producing large energy storage cabinet devices; The Phase III Battery Industry Chain Park covers an area of 10000 acres, with products mainly sold. China saw the potential to rebuild land connections that could move goods faster than sea routes and reduce exposure to maritime chokepoints. Instead of starting with a historic hub, planners selected Khorgos precisely because the land was open, undeveloped, and. ASTANA - The Khorgos International Center for Cross-Border Cooperation is becoming a growth driver of the Zhetisu Region in Kazakhstan's south-eastern part. A strong start to 2026 for the #MiddleCorridor As reported by AZERTAC News Agency, a 45-container China-Europe freight train carrying solar photovoltaic modules has departed from Xi'an, launching the first 2026 service via the Middle Corridor. Khorgos, located in the Ili Kazakh autonomous prefecture of Northwest China's Xinjiang Uygur autonomous region, carries a name that reflects its past and present. In Mongolian it means "the place where camel caravans pass", while in Kazakh it is understood as "the place where wealth accumulates". Friendly policies and logistics innovations help Xinjiang land port become major hub linking to Central Asia "Ferrywoman" Gao Yun has a car's QR code scanned for customs clearance at an inspection site at the Khorgos land port in the Xinjiang Uygur autonomous region on June 11, 2025. Recently, the commencement ceremony of Khorgos Zhong'an New Energy Storage Industrial Park project was held in the southern industrial park, which fully demonstrated the phased achievements of Khorgos' investment promotion and the good momentum of project construction, released a strong signal to.
