

# Muscat wind and solar container

## Overview

---

Enter the Muscat shared energy storage site – Oman’s answer to this energy seesaw. This 500MW facility isn’t just another battery farm; it’s like a giant power bank where businesses can “rent” storage space, preventing energy waste equivalent to powering 150,000 homes annually [1]. Muscat – Nama Power and Water Procurement (PWP) signed an agreement on Monday with a consortium led by Masdar to develop Oman’s first utility-scale solar and battery storage project with an investment of RO115mn. These projects are not only critical in our mission to reduce greenhouse gas emissions but also play a fundamental role in advancing our national goals for renewable energy a maximum total combined.
