Overview

RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations!. We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Falling technology costs and improving efficiency make containerized solar energy storage systems increasingly affordable in remote areas. Solar panel prices have dropped 82% since 2010, while lithium-ion battery costs decreased 89% over the same period. Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability.
