

Ouagadougou solar container peak load subsidy

Overview

The maximum subsidy available for solar without storage is PLN 6,000, increasing to PLN 7,000 for solar micro-installations with storage. It must be paired with electric storage facilities and/or heat storage facilities.

Implementing measures to save energy Another important step in reducing peak loads is to optimise the energy efficiency of the entire system. If the individual consumers require less power, this relieves the load on the entire system and reduces the likelihood of peak loads. and security unit for the largely pre-assembled photovoltaic system and lithium battery storage (100-500kWh) and smart gadgets ENERGY CONTAINERS: A a?

| Section 3: Advantages of Solar Containers.

Ouagadougou solar container peak load subsidy
