

Outstanding teachers in solar container enterprises

Overview

That's where solar powered container schools come in - literally shipping knowledge where traditional methods can't. Lagos State Government has unveiled a set of technology-driven modular learning spaces, introducing an innovation to the design of a modern classroom. Governor Babajide Sanwo-Olu, on Wednesday, commissioned a nine-classroom block built to replace decrepit concrete structures in Vetland Junior. This past spring, the Sky Youth program at Chickasaw High School chose SunFarm Energy to provide the solar array for the group's latest container classroom project.
