

Perfluoroketone water mist in solar container

Overview

The purpose of this study is to investigate an evaporation method to increase clean water production by adding a water mist system to the solar collector. Perfluoro (2-methyl-3-pentanone) is a fluorinated ketone with the structural formula $\text{CF}_3\text{CF}_2\text{C}(=\text{O})\text{CF}(\text{CF}_3)_2$, a fully-fluorinated analog of ethyl isopropyl ketone. It is used as an electronics coolant liquid and fire protection fluid sold commercially by 3M under brand names such as Novec 1230. Defined as “a chemical substance containing one or more fully fluorinated carbons,” per & polyfluoroalkyl substances (PFAS), are a broad category of materials that includes thousands of substances with a wide range of physical and chemical properties (e. Water's low level of hygiene is almost ignored as long as it can still be used to. Surface fluorination of conventional polymers can give them desirable surface properties similar to the expensive and difficult-to-process fluoropolymers. Fike chemical agent suppression systems are engineered to eliminate fires at the molecular level, reliably protecting irreplaceable assets in nearly all applications.

Perfluoro (2-methyl-3-pentanone)

Novec 1230 and FK-5-1-12 Novec 1230 is used as gaseous fire suppression agent in scenarios where water-based fire suppression (for example, from a fire sprinkler) would be impractical or where it ...

- LiFePO₄
- Wide temp: -20°C to 55°C
- Easy to expand
- Floor mount&wall mount
- Intelligent BMS
- Cycle Life:≥6000
- Warranty :10 years

A hydrophobic evaporable indano[60] fullerene ketone with low sublimation temperature (CF3-FIDO) was successfully synthesized, providing the fullerene...

Home Energy Storage (Stackble system)

High Efficiency Easy installation Safe and Reliable Perfect Compatibility

Product Introduction

- Scalable from 10kWh to 50kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem
- LFP battery, safest and long cycle life
- Stackable design, effortless installation
- Capable of High-Powered Emergency-Backup and Off-Grid Function

Solar water disinfection in high-volume containers: Are naturally

Access to safe drinking water is still a world challenge. The SODIS process is an easy and affordable household water treatment (HWT) for low income countries. The main limitations of its

The general public are exposed to small amounts of PFOS or PFOA in everyday life through exposure to dust, indoor and outdoor air, food, water and contact with consumer products that contain these ...

A simple photochemical method for surface fluorination using

Here, we report a simple, mild and easy-to-operate UV photochemical method for surface fluorination, using perfluoroketone compounds as both the fluorine source and the photosensitizer.

Decomposition pathway and kinetic analysis of perfluoroketone C

Recently, perfluoroketone C 5 F 10 O has been seen as a promising alternative gas for sulphur hexafluoride (SF 6), of which the global warming potential (GWP) is extremely high.

Water mist system application in solar collector system to increase

A water mist system is a mist distributor system consisting of single or multiple mist nozzles located inside of solar collector chamber. Water mist is a water spray product supplied by a ...

Water mist system application in solar collector system to increase

To overcome this problem, this research proposes a method to convert feed water or brackish water into clean water. The purpose of this study is to investigate an evaporation method to ...

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW/115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Chemical Agent Fire Suppression Systems , Fike
