

Ranking of solar container lithium battery recycling manufacturers

Overview

According to Expert Market Research, the top 15 battery recycling companies are Umicore, Ecobat, LLC, Glencore plc, Li-Cycle Corporation, American Battery Technology Company (ABTC), East Penn Manufacturing, RecycLiCo Battery Materials Inc. Tesla, a leader in energy storage and electric cars, has made a name for itself as a recycler of lithium-ion batteries. By utilizing state-of-the-art technologies, Tesla concentrates on recovering precious metals like nickel and cobalt, helping to create a closed-loop battery manufacturing system. Without proper recycling, these batteries can leak harmful chemicals into the environment. The Global Lithium-ion Battery Recycling Solution Market is rapidly evolving as industries push toward sustainability and regulatory mandates tighten across key markets.

Ranking of solar container lithium battery recycling manufacturers

Top 50 Energy Storage Companies in 2021 , YSG Solar

#33. SunPower SunPower is one of the most recognized companies in the solar business, working with residential customers, businesses, governments, educational institutions, and ...

12 Leading Battery Recyclers for a Guilt-Free Future [2026 review]

Battery waste is the dark secret of renewable energy adoption. Read more about 12 innovative battery recycling companies working to address this problem.

- All in One**
Integrating battery packs
- High-capacity**
50-500kWh
- Degree of Protection**
IP54
- Operating Temperature Range**
-20-60°C.(Derating above 50 °C)
- Intelligent Integration**
Integrated photovoltaic storage cabinet
- Rated AC Power**
50-100kW
- Altitude**
3000m(>3000m derating)

Top 20 Companies dominating the Global Battery recycling market

The following are the top 20 leading companies in the global battery recycling industry: No. Company Key Focus Areas Notable Achievements
1 Umicore Lithium-ion battery recycling, ...

Top Lithium-ion Battery Recycling Solution companies In 2025

Lithium-ion Battery Recycling Solution Market was valued at USD 7,796.76 million in 2023 and is expected to reach USD 9,912.8 million in 2024, with growth anticipated to reach USD ...

Lithium-ion Battery Recycling Companies, Top Industry Manufacturers

Lithium-ion Battery Recycling Companies: The research insight on lithium-ion battery recycling market highlights the growth strategies of the companies. Know the future scenario, forecast, and current ...

Top 10 lithium-ion battery recycling companies

Top 10 lithium-ion battery recycling companies are Umicore, Glencore, Li-Cycle, RecyLiCo Battery Materials, Sitrasa, RECUPYL SASA, Nepmetals, Raw Materials Company, ...

Global Top 10 Lithium-ion Battery Recycling Companies 2026

Here are the top 10 lithium-ion battery recycling companies specializing in closed-loop recycling, end-of-life battery and EV battery recycling, and more.

Top Lithium-ion Battery Recycling Solution companies In 2025

Lithium-ion battery recycling refers to the process of recovering valuable metals such as lithium, cobalt, nickel, and manganese from end-of-life batteries. This market encompasses ...

The Top Ten Manufacturers Of Battery Energy Storage Systems In 2023.

The Top Ten Manufacturers Of Battery Energy Storage Systems In 2023. In an era marked by the escalating importance of sustainable energy solutions, Battery Energy Storage ...

Lithium-ion battery recycling report , CAS and Deloitte

A report by EPA: An analysis industry development plan Interim measures for the management of recycling of lithium-ion battery fires in (2021-2035) and utilization of new energy power vehicle battery

Top 10 lithium battery recycling companies in the world ...

Lithium battery recycling technology has become one of the key areas of lithium battery research. At the same time, lithium battery recycling is considered to be ...

Lithium-Ion Battery Manufacturers and Recycling

EV battery manufacturers across the nation are establishing battery recycling facilities and partnering in public-education efforts to promote recycling to reach circularity.

Lithium-Ion Battery Recycling Companies

Lithium-ion batteries, with their high concentration of valuable metals, have become key candidates for recycling. By recovering these critical raw materials, battery recycling not only reduces ...

Top 8 Companies That Recycle Lithium Batteries (2025 List)

Companies that recycle lithium batteries play a pivotal role in preserving the environment, recovering valuable battery materials, and reducing waste. In this article, we'll explore some of the ...

Top 10 Lithium Battery Recycling Plants in the United States, 2025

Enter the unsung champions: lithium battery recycling plants. These facilities don't just process scrap; they breathe new life into old batteries, recovering valuable materials like lithium, ...

Top 10 Companies in the North America Li-ion Battery Recycling ...

In this analysis, we profile the Top 10 Companies in the Li-ion Battery Recycling Market - a mix of established processors, innovative startups, and vertically integrated manufacturers ...

42 Commercial Storage Battery Manufacturers in 2025 , Metoree

This section provides an overview for commercial storage batteries as well as their applications and principles. Also, please take a look at the list of 42 commercial storage battery manufacturers and ...

Top 10 Well-Known Solar Battery Manufacturers

Before investing in the field of solar energy storage batteries, understanding the well-known suppliers in the industry can help you judge the industry situation ...
