

Salary for china-europe mobile solar container technology post

Overview

00 per year Benefits: Work Location: Remote If you require alternative methods of application or screening, you must approach the employer directly to request this as Indeed is not responsible for the employer's application process. But for those in Europe's energy markets, solar is increasingly being linked to something else altogether: batteries. According to research released earlier this year by the industry body SolarPower Europe, battery energy storage system (BESS) capacity soared by an eye-popping 94% in 2023. The European Solar Energy and Energy Storage sector is a rapidly growing industry that is playing a critical role in the region's transition towards a more sustainable energy future.
