

Snec lebanon solar container exhibition address

Overview

Project Lebanon, the 26th International Trade Exhibition for Construction, Infrastructure, and Renewable Energy, will take place from 6 - 9 May 2025, at the Seaside Arena, Beirut New Waterfront. The Beirut Energy Week is expected to be an exceptional event focused on all elements of the green energy transitions that most countries are witnessing. Did you know Lebanon currently imports 97% of its energy needs while solar panels sit idle during blackouts?

The 2025 Lebanon Energy Storage Exhibition (March 18-20, Beirut) emerges as the region's critical platform to solve this paradox. As the first liquid-cooled, 10-meter class mobile energy storage vehicle with the world's largest capacity in the industry so far, "Xin Era" is a bold innovation of Sunwodght to invest in energy storage. As the most professional PV exhibition, SNEC showcases PV manufacturing facilities, materials, PV cells, PV application products & modules, PV project and system, energy storage and mobile energy, covering every section of the whole PV industry chain. Charging Infra, Green Hydrogen & Microgrids June 23 rd - 27 th, 2025 at Hall 1B.
