

Solar container and policy status

Overview

Government initiatives and disaster resilience programs boost the adoption of solar containers for emission-free power. The above 50 kW segment is gaining traction for its ability to power large commercial operations and rural community electrification. Raleigh, NC - (January 14, 2026) The NC Clean Energy Technology Center (NCCETC) released the annual update to its solar decommissioning tracking snapshot report today, entitled “ The 50 States of Solar Decommissioning: 2025 Snapshot. The market, estimated at \$2 billion in 2025, is projected to expand at a Compound Annual Growth Rate (CAGR) of 15% from 2025 to.
