Overview

The Rebelvolt Container integrated battery system is a low emission power solution engineered for seamless and modular integration into standard containers. Designed with efficiency and sustainability in mind, it delivers clean, silent, maintenance-free and scalable power source. By integrating advanced technologies such as smart energy management platforms and IoT connectivity, it supports efficient. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Solar battery life in a MEOX container can last 10 to 15 years if you take care of it. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.
