

Solar container bond project planning

Overview

Below, we'll outline which bonds typically appear at each stage of a community solar project and why obligees require them. We'll also show how insurance agents and Engineering, Procurement, and Construction (EPC) firms can prepare submissions that secure faster approvals. Even with such strong momentum, these projects can stall without the right credit support in place. Are you a solar contractor looking to secure lucrative solar contracts, but struggling to meet the credit underwriting or indemnification requirements of surety bond companies?

We understand the challenges you face in the dynamic solar industry and the critical need for reliable surety credit. solar of It system the instantaneous Large, ground-mounted arrays in Massachusetts is typically size. In 2011, the \$702MM Project Bond for NextEra Genesis Solar, a single-site Concentrating Solar Power (CSP) project with a capacity of 250MW in California, marked the opening of the US Debt Capital Market for solar projects.
