## Overview

---

The global solar container market refers to the enterprise involved in the manufacturing, distribution, and utilization of sun electricity solutions encapsulated inside shipping containers. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. The container is equipped with foldable high-efficiency solar panels, holding 168–336 panels that deliver 50–168 kWp of power. By integrating all necessary equipment within a transportable structure, these units provide modular, plug-and-play renewable energy systems.
