

Solar container for electric vehicles clean the largest solar container facility

Overview

Called the Darden Clean Energy Project (DCEP), the new installation — which will be built alongside a solar farm — will be the largest battery storage facility ever built anywhere in the world. Red Hook Container Terminals LLC announced today that it has begun regular commercial operation of ten (10) BYD Motors heavy-duty zero-emission battery electric yard tractors at its container terminal in Port Newark, New Jersey. Developed, owned, and now operated by Arevon, the two-phase Eland Solar-plus-Storage Project is capable of supplying 7% of Los Angeles's electricity — energizing and bolstering the grid for a city whose influence reaches every screen and every stream. The commission said the installation features 1,150 MW, or 4,600 kWh, of battery energy storage, along with a.
