

Solar container income tax

Overview

Personal-use solar power systems are eligible for a federal income tax credit under Sec. This credit is available only for the taxpayer's personal residence and equals up to 30% of the costs of qualified property installed. These incentives raise tax planning issues that go well beyond those involved in general structural, choice-of-entity, and other financing considerations, and create the potential for significant economic benefit. This legislation brings significant changes to the federal tax credit for residential and commercial solar and battery systems.

Solar container income tax
