

Solar container latest news policy

Overview

September 2025 brings major US solar policy shifts, from ITC guidance and tariffs to state battles over net metering, storage, and permitting. Jefferies initiates Buy on Emmvee Photovoltaic, citing India's rapid solar scale-up, strong policy support and cost advantages. It expects installations to grow 24% CAGR, lifting domestic manufacturers' profitability and positioning Emmvee for high-teen returns despite medium-term margin pressures. — Today the Solar Energy Industries Association (SEIA) is unveiling a new policy agenda that details the critical actions that local, state, and federal leaders must take to strengthen the reliability of America's electric grid with solar and storage technologies.
