

Solar container pool 100 cubic meters

Overview

The container is equipped with foldable high-efficiency solar panels, holding 168–336 panels that deliver 50–168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, keeping operations running even in remote areas or where infrastructure is. The polyurethane cold room panel is composed of two galvanized steel sheets and rigid polyurethane foam in the middle. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Why lose revenue to construction delays when your next 5-star review is just a crane lift away?
