

Solar container project application subsidy funds

12.8V 200Ah

Overview

This guide will walk you through the essential steps to secure government grants for your solar energy project, focusing on two major programs: the Solar for All initiative and the Rural Energy for America Program (REAP). The Solar Energy Technologies Office (SETO) does not provide financial assistance to companies or individuals to install solar systems. Massive Federal Investment Available: The EPA's Solar for All Program represents the largest federal solar grant investment in history with \$7 billion allocated across all 50 states, targeting over 900,000 households. Clean Energy Grants began in 2024, when Energy Programs in Communities (EPIC) combined several funding streams to reduce barriers for applicants, maximize the construction timeline for clean energy projects, and enhance equitable outcomes. The California Solar for All Program (CA-SFA), implemented through a multi-agency coalition, is in the planning stage.
