

Solar container science and engineering civil service positions

Overview

Clicking on the position title will take you to the USAJOBS page where you can review position details and apply. Headquartered in Houston, TX, our team brings extensive experience in the engineering, procurement, construction (EPC), and integration of utility-scale renewable energy projects. By leveraging cutting-edge technologies, we deliver high-quality, cost-effective energy solutions that meet the needs. This position requires an electrical, civil, or other relevant engineering degree from an ABET-accredited engineering program.
