Overview

The solar-storage facility will be situated at the Jazeera Power Plant in Mogadishu. This initiative comes amidst Somalia's heavy reliance on diesel generators, as renewable sources remain limited. Our pioneering solar cold storage services, tailored for accessibility with a pay-as-you-go model, is not just about preserving food—it's about revolutionizing the way smallholder farmers, fishermen, and wholesalers operate, turning potential losses into sustained profits and quality products. Xinjiang Tianchi Energy Sources and China Datang have proposed a power station of four units of 660 MW for Changji city. The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV evacuation line. [pdf] PiKCELL Group, in partnership with Solar Power, has unveiled a plant to produce solar.
