

Southern sesame investment in solar container

Overview

The structures, some as large as a shipping container, have rooftop solar panels that can generate power in as little as 15 minutes. Intelligent Energy's 4kW fuel cell modules are being used to provide this renewable, quick response power. Sesame Solar is revolutionizing dual-use, self-generating off-grid power for defense and commercial applications. Powered by solar + hydrogen + battery storage—and easily set up by 1 person in <15 minutes—Sesame Solar's Mobile Nanogrids fulfill diverse energy demands with the mobility to provide. Sesame Solar's Mobile, Turnkey Distributed Energy Resources (DERs) support multiple energy inputs to power mobile solutions for Medical Clinics and Security Command Offices and will meet the Department of Defense operational and forward expeditionary need Sesame Solar, Inc.
