

Tcl group solar container business 2020

Overview

Tianjin Zhonghuan Semiconductor has been acquired by TCL, as the Chinese consumer electronics manufacturer won an auction to buy shares of its parent, state-owned Zhonghuan Electronic Information Group. TCL works with a recycling management company that oversees the recycling goals they are given. Developed within TCL SunPower, a business unit formed through TCL's acquisition of SunPower, this brand represents the fusion of two industry leaders: SunPower, with over 40 years of solar innovation, and TCL, a global leader in. The National Energy Administration, meanwhile, reported record growth for the distributed-generation PV segment in June. TCL Photovoltaic Technology is a green energy full-lifecycle smart service provider that offers one-stop solutions integrating development, manufacturing, and energy management.
