

Tesla supplies supporting products for home solar container projects

Overview

Powerwall is a compact home battery that stores energy generated by solar or from the grid. You can then use your stored energy to power the devices and appliances in your home day and night, during outages or when you want to go off-grid. Flexible financing and low monthly lease options can help you secure the best price for your solar system. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. From state of the art solar installations to fully integrated energy and storage systems, Vikta delivers solutions that put you in control —helping you save on rising energy costs, reduce environmental impact, and gain energy independence using the very best technology.

Tesla supplies supporting products for home solar container project

Solar Powered Roof Tiles

Glass solar tiles and architectural-grade steel tiles, vent covers and ridge caps come together to form a roof that is both durable and powerful. Combine your Solar Roof with Powerwall--a home battery ...
