

The simplest solar container

Overview

Join us as we take a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container! Hi there, we're Jonathan & Ashley from Tiny Shiny Home. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. In a universe where electricity isn't always where—or when—it's needed, a mobile solar container is an easy, fuel-efficient power solution. Whether you're energizing a remote clinic, fueling a building site, or lighting a rural school beyond the power grid, this technology may be just what you.

The simplest solar container

SolaraBox Solar Containers , Products & Configurations

A mobile solar container is a factory-built, transportable unit that integrates solar panels, battery storage, and power controls--providing plug-and-play, rapid-deploy clean electricity for remote sites, events, ...
