

The world s first solar container major

Overview

HGK Shipping has taken a major step toward greener inland transport with the launch of Blue Marlin, the world's first inland cargo vessel equipped with a hybrid solar-powered propulsion system. Discover how Sunmaygo invented the world's first foldable solar container, pioneering a new era in mobile renewable energy solutions. Sunmaygo team focused on developing a groundbreaking solution that combined the best of energy mobility technologies. The Blue Marlin uses advanced solar technology not only to power its onboard systems but also to drive its main propulsion, setting a new standard for eco-friendly cargo.

The world's first solar container major

NEW Solar Powered Roof Vent For Shipping Containers!

Channing and William install a Solar Powered Roof Vent that is adapted to fit the roof corrugations of a sea can called the Big Air 400 CFM Solar Roof Vent f

Facebook

The companies collaborate on technology, and SpaceX's Falcon Heavy rocket even launched a Tesla Roadster into space as part of a 2018 test flight. Sustainable Vision: Tesla's mission is to accelerate ...

All the way to net zero , Decarbonising shipping , Maersk

Maersk aims to reach net zero by 2040. Learn about the world's first container vessel sailing on green methanol and our commitment to decarbonise logistics.

Transforming a Shipping Container Into a DIY Solar Power Station!

Join us as we take you through the intricate details of transforming a 20-foot standard shipping container into a solar powerhouse capable of energizing an entire town.

World's First Hybrid Solar-Powered Inland Cargo Ship Launched

This vessel is the world's first hybrid solar-powered inland transport ship, featuring 192 solar panels that power both its high-voltage propulsion system and onboard operations.
