

Uk solar container investment project planning and acquisition

Overview

Low Carbon has offloaded a substantial slice of its UK clean energy pipeline, selling a 435MW ready-to-build renewable energy portfolio to French energy giant TotalEnergies. Solar and energy storage company Elgin has completed the deal to buy a "significant" portfolio of solar and battery storage assets in the UK, which it said marks a new chapter in its growth strategy. Asset investment manager AlphaReal has acquired five solar energy projects across the UK in transactions worth over £160 million. AlphaReal's renewable infrastructure offerings follows a diversified UK-wide investment approach where it primarily invests in onshore wind and ground mount solar.
