

# **West africa beijing solar container subsidy policy**

## Overview

---

The notice outlines subsidy policies for new energy storage, including the following: Independent energy storage capacity will receive a capacity compensation of 0.2 CNY/kWh discharged, gradually decreasing by 20% annually starting from 2024 until 2025. The West Africa Container Terminal (WACT) has signed a significant Solar Lease Agreement with Starsight Energy, to provide an expected 1. The cheapest approach to achieving universal electricity access in numerous regions seems to be rooted in renewable. The nearly 50GW of battery storage that could be online by 2037 will increase the wholesale market revenues for wind and solar assets and thereby reduce the amount of subsidies paid to those assets out of general taxation through the EEG (Erneuerbare-Energien-Gesetz/Renewable Energy Sources Act).
