

What are the suppliers of plug-in solar container batteries

Overview

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. Governments, humanitarian organizations, and private enterprises are focusing on solar containers to deliver sustainable, emission-free power for disaster relief, military operations, rural electrification, and construction projects. Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase energy efficiency. We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Fill Out Our Contact Form Below To Get Started!
