

Where is the power storage industrial park

Overview

It is located 120 miles east of San Diego and the park is easily accessible via Interstate 8. The Covina Battery Energy Storage System (BESS) is a pivotal project situated in Los Angeles County, CA. The park is equipped with various working facilities and is suitable for those interested in both small and large storage locations for both the short and long term. Search industrial and warehouse property for lease and view the Market Overview section below for local stats and insight.
