

Where is the windhoek independent solar container power station

Overview

The project stems from a 2021 bid by the City of Windhoek seeking an Independent Power Producer (IPP) to finance, procure, install, commission, and operate the 25MW solar PV plant on a build-own-operate basis for 25 years. APR Energy designed, built, and commissioned a 60MW temporary power plant to help the Peruvian government alleviate its power supply constraints. Prior to the installation of the diesel power modules, our engineering and operations teams performed. One of the outcomes of this policy is the ongoing 25MW Solar PV project, which is being implemented under the Public-Private-Partnership Act No. It will diversify the electricity supply and reduce the dependence on NamPower, the. We provide operation and maintenance services (O&M) for solar photovoltaic plants.
